

BENCE PÉNTÉK

About Me

I'm a creative enthusiast with a deep love for music production, motion graphics, and UI/UX design. I find joy in crafting melodies, visual effects, and seamless user experiences.

When it comes to coding, I'm highly motivated and truly passionate about bringing ideas to life through technology. My dedication to continuous learning keeps me updated on web technologies and design trends.

Language

English B2 (proficient in speaking and understanding)

Education

Szegedi Tudományegyetem Juhász Gyula Pedagógusképző Kar (SZTE JGYPK)
(Software Information Technology)

Debreceni SZC Beregszászi Pál Technikum
(Software Developer)

Experience

I have one year of professional development experience in which I focused on Symfony API development, including debugging, API documentation creation, and Doctrine unit testing. I also worked on projects involving JavaScript and jQuery. In one project, I took on a full-stack developer role, actively using Symfony and JavaScript. Additionally, I have experience in Docker setup and configuration.

Skills

CSS

└ SASS, BOOTSTRAP, TAILWIND CSS
